Documentation is required stating your animal won't need to relieve itself during the flight, or can do so in a way that doesn't create a health and sanitation issue.

1. Describe what steps have been taken to prevent your animal from relieving itself during the flight.

2. If your animal needs to relieve itself during the flight, describe how you would handle this to prevent a health and sanitation issue.

This form must be submitted to the Special Assistance Desk at least 48 hours before your flight.
