Rule 5 Application of Tariff

(A) General

(1) This tariff shall apply to carriage of passengers and baggage, and to all services incidental thereto, performed by AA under local fares, rates and charges and by AA in conjunction with other participating carriers under AA governed interline fares, rates and charges contained in tariffs which make specific reference to this tariff for governing rules, regulations and conditions of carriage.

Note: For application of fares, rules, and charges as set forth in this tariff or any tariff to which reference is made by this governing tariff, any fare shall be deemed to be governed by AA when defined as such by IATA Fare Selection Criteria.

(2) Where AA is specifically named in any rule contained herein such rule applies to local carriage via AA in conjunction with other participating carriers named in such rule.

(3) Where participating carriers other than AA are specifically named in any rule contained herein such rule applies only to carriage in conjunction with AA.

(4) Except as otherwise provided, charges or monetary amounts shown herein in dollars or cents are stated in terms of lawful U.S. currency. Charges or monetary amounts are also stated in terms of lawful Canadian currency whenever so indicated directly in connection therewith.

(5) Except as otherwise provided below, fare rule provisions, local or joint fares, including arbitraries contained in the online tariff database maintained by Airline Tariff Publishing Company, agent on behalf of AA, are considered to be part of this tariff.

(B) Carrier liability to passengers - referenced in Rule 55.

Note: (Applicable for transportation to/from Canada) the obligations of the carrier under the Air Passenger Protection Regulations (APPR) form part of the tariff and supersede any incompatible or inconsistent term and condition of carriage set out in the tariff to the extent of such inconsistency or incompatibility, but do not relieve the carrier from applying terms and conditions of carriage that are more favorable to the passenger than the obligations set out in the APPR.

(C) Gratuitous carriage

With respect to gratuitous carriage, carrier reserves the right to exclude the application of all or any part of this tariff.

(D) Change without notice
Except as may be required by applicable laws, government regulations, orders and requirements, carrier's rules, regulations and conditions of carriage are subject to change without notice; provided that no such change shall apply to tickets issued prior to the effective date of such change.

(E) Effective rules, fares and charges

(1) All carriage of passengers and/or baggage shall be subject to the carrier's rules, regulations, contract of carriage, and tariffs in effect on the date of ticket issue.

(2) If, after a ticket has been issued and before any portion thereof has been used, an increase in the fares or charges applicable to the transportation covered by the tickets becomes effective:

(a) Individual travel
No increase will be collected in cases where the ticket has been issued prior to the effective date of a tariff containing an increase in the applicable fare, effected through a change in fare level, a change in conditions governing the fare, or a cancellation of the fare itself, provided:

(i) The originating flight coupon of the ticket was issued for a specific flight at the fare in effect on the date of ticket issuance (determined by the date of validation on the ticket).

(ii) That, subsequent to the effective dates of any increase in the applicable fare, the originating flight coupon is not changed voluntarily, including changes to class of service, except to add a discount applicable or delete a discount not applicable on the date of original ticket issue.

(iii) Fare increases for voluntary changes will be applicable as follows:

(aa) The originating flight coupon is changed voluntarily or an open one way ticket is confirmed for a specific flight.

(bb) All flight coupons are subject to recalculation of fare from point of origin using fares in effect on the day the change is reflected on passenger travel documents and/or electronic ticket

(iv) This provision shall apply only to the passenger to whom the ticket was originally issued.

(b) Group travel
The terms and conditions which apply to group travel are located in the individual group contracts.

(F) Reference to tariffs, pages, rules, items and notes are continuous and include revisions, supplements thereto and reissues thereof.

(G) No employee of the carrier has the authority to alter, modify or waive any provision of the

contract of carriage or of this tariff unless authorized by a corporate officer of carrier. AA appointed agents and representatives are only authorized to sell tickets for air transportation pursuant to the approved fares, rules and regulations of AA, (applicable for transportation to/from points outside the U.S.A.) and on file with the D.O.T. This rule supersedes any conflicting provisions contained in the contract of carriage.

(H) Overriding law

(Applicable only for transportation to, from, or via a point(s) outside the U.S.A.)

Insofar as any provision contained or referred to in the ticket or in this tariff may be contrary to mandatory law, government regulations, orders, or requirements, such provision shall remain applicable to the extent that it is not over-ridden thereby. The invalidity of any provision shall not affect any other part.

(I) Misfiled fares

AA, as a policy, does not file nor intend to offer/file fares priced at zero (exclusive of any surcharge). Essentially, such fares do not make any economic sense. AA has introduced warning mechanisms to try to prevent such occurrences; however, occasionally fares such as these mistakenly get loaded into computer reservation systems that are not controlled by AA. Agents/customers should be aware that in these circumstances they are not allowed to ticket at these fares and AA will not honor fares of zero (exclusive of any surcharge). In the event that a zero fare (exclusive of any surcharge) is ticketed inadvertently, AA will void such ticket and may choose to waive, in its sole discretion, certain rules or restrictions of existing published fares as a gesture of good will.

(J) Erroneous fares

AA reserves the right to cancel tickets issued with erroneously quoted fares due to a technical failure or mistake, including but not limited to a fare filing error, computer error or third-party error (either human or mechanical), prior to the erroneous fare being detected and corrected. AA, as a policy, does not intend to file fares that are erroneous or are reasonably apparent as erroneous. Where an erroneous fare has been published and a ticket issued at the erroneous fare, AA will void such ticket and notify the passenger that the ticket has been cancelled:

(1) Within 72 hours of becoming aware of the publishing of an erroneous fare, or

(2) At least 24 hours prior to the passenger's scheduled departure time in cases where the ticket is purchased less than 72 hours before the scheduled departure from the point of origin.

AA will provide a refund of the total cost of a ticket purchased at the erroneous fare price to passengers so notified.

Rule 15 Electronic Surveillance of Passengers and Baggage

Passengers and their baggage are subject to inspection with an electronic detector with or without the passenger's consent or knowledge.

Rule 18 Seating of Blind/Deaf Passengers

(A) Blind passengers - seating will be provided in accordance with the following:
  (1) Nonsmoking. If possible, AA will provide a window seat in the first row of seats following the class/zone dividers/partitions in either cabin on all aircraft (see note).
  (2) Smoking. If possible, a window seat in the rear most part of the cabin will be provided on all aircraft. (see note).
  Note: Blind passengers will never be seated in a row with, forward of, or behind a window exit, or, on wide body aircraft, rows over a wing.

(B) Deaf passengers - Deaf passengers will be provided seats in accordance with normal seating practices except that they will not be seated in a row with, forward of, or behind a window exit or in a row with an emergency door exit.

Rule 20 Carriage of Nonambulatory Passengers

Non-ambulatory passengers, as defined in (a) below, will be accepted for transportation without an attendant, as long as provisions in paragraphs (b) and (c) below are met and maximums in paragraph (d) below are not exceeded.

The reservation for space of such passenger is subject to cancellation by the carrier without notice if the passenger has not applied to the carrier or agent of the carrier for a validated ticket specifying thereon the confirmed reserved space prior to the agreed time in advance of the scheduled departure of the flight to which such reservation applies.

Exception 2: In the event of a termination of an interline traffic agreement between

AA and another carrier, AA will honor any reservation for travel on AA made by such other carrier prior to termination provided AA issues the ticket if such ticket was not issued prior to termination.

when you purchase a ticket seven or more days prior to departure by telephone with American Airlines reservations or via aa.com for American Airlines flights (including American Airlines flights operated by codeshare partners), you have up to 24 hours from the time of ticket purchase to receive a full refund for your ticket. After 24 hours have elapsed, normal refund policies apply to the ticket. If you elect to make changes to the itinerary after the 24 hour time period, a change fee may apply and the ticket price may also change depending on the fare purchased.

(2) Unless prior authorization is received, American Airlines prohibits the practice of confirming reservations as follows:

(a) Fraudulent, fictitious and abusive reservations

These types of reservations are defined as any reservation made without having been requested by or on behalf of the named passenger. Additionally, creating reservations to hold or block seats for the purpose of obtaining lower fares, AAdvantage award inventory, or upgrades that may not otherwise be available or to circumvent any of American Airlines fare rules or policies, is prohibited.

(b) Duplicate and impossible/illogical reservations

A duplicate or impossible/illogical reservation includes, but is not limited to: reservations for the same passenger on flights traveling on or about the same date between one or more of the same or nearby origin and/or destination (such as JFKDFW and LGADFW or DFWLAX and DFWONT); or reservations with connections that depart before the arrival on the inbound flight.

(3) Overbooking

Carrier may accept reservations of space for specific flights in excess of available space on board the aircraft. The number of excess reservations planned by the carrier for a particular flight is based upon the anticipated booking pattern for such flight. The determination of this pattern takes into consideration current conditions which may affect the expected utilization of space on the flight as well as historical factors such as the rate of late cancellations for the flight, failure of persons with confirmed reservations to show for the flight and the absence of any record for

certain reservations in the carrier's inventory of the flight. In the event that the number of persons presenting themselves with confirmed reservations for carriage on a flight exceeds the number of seats available, those passengers with confirmed reservations who are not accommodated may be eligible to receive denied boarding compensation provided in rule 87 (denied boarding compensation).

(4) Seat allocation
Carrier does not guarantee allocation of any particular space in the aircraft.

(C) Cancellation of reservations

(1) Carrier will cancel the reservation of any passenger whenever such action is necessary to comply with any governmental regulation, or to comply with any governmental request for emergency transportation in connection with the national defense, or whenever such action is necessary or advisable by reason of weather or other conditions beyond its control.

(2) The Transportation Security Agency's (TSA) secure flight program requires that American collect the following additional information from passengers when making a reservation to fly within, into or out of the United States and reservations for point-to-point international flights operated by U.S. based airlines:
(a) Full name (required), as it appears on government-issued i.d. approved for use when traveling.
(b) Date of birth (required)
(c) Gender (required)
(d) Redress number (optional)
American may cancel your reservation if the reservation does not include the required secure flight passenger data (full name, date of birth and gender) at least 72 hours prior to your scheduled departure. This cancellation policy applies to all American Airlines tickets, including tickets for our flights operated by our codeshare partners.

(3) Failure to occupy space if the passenger fails to occupy space which has been reserved for him on a flight of any carrier and such carrier fails to receive notice of the cancellation of such reservation prior to the departure of such flight, or if any carrier cancels the reservation of any passenger in accordance with paragraphs of this rule, such carrier will cancel all reservations held by such passenger on the flights of any carrier for continuing or return space, provided such carrier originally reserved the space.

(4) Carrier is not liable when it cancels the reservation of any passenger in accordance with this rule, but
(a) If such reservation was cancelled pursuant to paragraph (c)(1) of this rule, such carrier

will take such action as is provided in rule 80 (revised routings, failure to carry and missed connections).

(b) If such reservation was cancelled pursuant to other paragraphs of this rule, such carrier will refund in accordance with rule 90-(e) (refunds - voluntary).

(5) (Applicable to reservations made in the Western Hemisphere, except in the US/Canada, by authorized travel agents.) Carrier will assess a fee of USD 50.00 for any un-ticketed reservation not cancelled prior to departure.

(D) Time Limit For Ticket Issuance/Payment

Passenger must apply for a validated ticket at least 60 minutes prior to the departure time of a flight.

(E) Communication Charges

The passenger will be charged for any communication expense paid or incurred by carrier for telephone, telegraph, radio, or cable arising from a special request of the passenger concerning a reservation.

(F) Minimum Check-In Time

All airports have a minimum time by which you must be checked in for your flight, regardless of whether you're checking bags. Times will differ based on your itinerary.

(1) Travel entirely within the United States

for itineraries that include only airports within the United States, you must be checked in 45 minutes before scheduled departure time.

Rule 61 Capacity Limitations

(A) A reservation for space on a given flight is valid only when the availability and allocation of that space is confirmed at such fares by a reservation agent of the carrier.

(B) Carrier may limit the number of passengers carried on any one flight at fares governed by this rule and fares will not necessarily be available on all flights. The number of seats which the carrier shall make available on a given flight will be determined by carrier's best judgment as to the anticipated total passenger load on each flight.

Rule 64 Surcharges

(A) General provisions

(1) A surcharge will be assessed for any fare paying passenger each time travel involves enplanement on an AA flight as shown below.
Exception: (Not applicable to HKG security surcharge in (D) below. No surcharge applies to infant passengers without a seat on journeys regardless of the fare charged.

(2) For passengers traveling via AA in both directions, the surcharge outlined below shall be applied twice except as noted.

(3) The surcharge may be converted to the applicable currency for the country of origin in accordance with the appropriate IATA Rate of Exchange.

(4) The surcharge will not apply to passengers traveling on any AA free ticket.

(5) The surcharge applies in addition to all other charges and is not subject to any discount.

Aa will not be responsible for errors or omissions either in timetables or other representations of schedules. No

employee, agent or representative of AA is authorized to bind AA by any statements or representation as to the dates or times of departure or arrival, or of the operation of any flight.

(2) Schedule irregularity

If, at time of departure, a passenger will be delayed because of a schedule irregularity or a carrier cancels the passenger's reservation pursuant to rule 60.

Note: Schedule irregularity does not include force majeure events as defined in 80 (c)(4)(b) (reservations)

(a) Any carrier causing such delay or in the case of a misconnection the original receiving carrier(s), will transport the passenger without stopover on its (their) next flight, on which space is available, in the same class of service as the passenger's original outbound flight at no additional cost to the passenger; if space is available on a flight(s) of a different class of service, acceptable to the passenger, such flight(s) will be used without stopover at no additional cost to the passenger only if it (they) will provide an earlier arrival at the passenger's destination, next stopover point or transfer point, or

(c) Notwithstanding the above, the carrier will issue a refund in accordance with rule 90 (refunds) if the passenger so requests.

Note: In the event that AA changes the time of departure or routing of a flight in a manner that does not constitute a schedule change as defined herein, AA will transport the passenger on the rescheduled flight at no additional cost to the passenger. If the passenger elects not to travel on the rescheduled flight, AA will refund the value of the affected coupons in the form of a nonrefundable AA travel voucher. The AA travel voucher is valid for one year from date of issue and may be used as payment for air travel related service on AA only. Vouchers will not be issued when the change in schedule involves a flight number change only.

(4) Cancellations

(a) AA undertakes to use its best efforts to carry the passenger and baggage with reasonable dispatch, but no particular time is fixed for the commencement or completion of carriage. Subject thereto AA may, without notice, substitute alternate carriers or aircraft and may alter or omit the stopping places shown on the face of the ticket in case of necessity.

(b) AA may, in the event of a force majeure event, without notice, cancel, terminate, divert, postpone, or delay any flight or the right of carriage and determine if any departure or landing should be made. In such event, liability is limited to (1) refund, in the original form of payment and in accordance with involuntary refund rules, any unused portion of the ticket, and (2) any liability provided by the Montreal Convention, subject to the terms, limitations, and defenses set forth in the Montreal Convention.

Exception 2: In the event of a strike or work stoppage which causes any cancellation or suspension of operations of any other carrier, the provisions in (c) above will not apply with respect to passengers holding tickets for transportation on that carrier.

(6) Service charge

AA will assess a service charge of USD 100.00/CAD 150.00 per ticket, for voluntary rerouting changes requested by a passenger which will require reissuance/revalidation of a ticket under the following conditions: AA/AB/AY/BA/CX/HG/IB/JJ/JL/KA/LA/MH/QF/QR/RJ/S7/UL/US/XL/4M or a codeshare flight operated by AA is not included in the itinerary from the point at which the rerouting takes place.

Note: change in schedule does not include fare majeure events as defined in rule 80(c)(4)(b).

(2) Endorse to another carrier or other transportation service, the unused portion of the ticket for purposes of rerouting; or

(3) Reroute the passenger to the destination named on the ticket or applicable portion thereof by its

own or other transportation services; and, if the fare, excess baggage charges, and any applicable service charge for the revised routing or class of service is higher than the refund value of the ticket or applicable portion thereof as determined by rule 90 (refunds), carrier will require no additional payment from the passenger, but will refund the difference if it is lower; or

Exception: AA will reroute the passenger as provided above, but without stopover at any point on the rerouted portion of the trip.

(4) (a) Transport the passenger on another economy class flight on which space is available, or

(b) Transport the passenger to the destination shown on its portion of the ticket on AA'S next first class flight on which space is available, at no additional fare, if so doing will provide an earlier arrival than the next economy class flight on which space is available.

(5) Make involuntary refund in accordance with rule 90(d)(refunds - involuntary).

(E) Missed connections

In the event a passenger misses an onward connecting flight on which space has been reserved because the delivering carrier did not operate its flight according to schedule or changed the schedule of such flight, the delivering carrier will arrange for the carriage of the passenger or make involuntary refund in accordance with rule 90 (refunds).

(F) Free baggage allowance

An involuntarily rerouted passenger shall be entitled to retain the free baggage allowance applicable for the type of service originally paid for. This provision shall apply even though the passenger may be transferred from a first class flight to a business/economy/tourist class flight and is entitled to a fare refund.

(G) Notwithstanding any other provision of this tariff, AA reserves the right to refuse to honor flight coupons of another carrier for free transportation or, flight coupons of another carrier restricted to online only transportation of such other carrier.

(H) In the event of a termination of an interline traffic agreement between AA and another carrier, AA'S practices under this rule with respect to such other carrier's tickets shall not apply to any tickets of such other carrier issued after the termination of the interline agreement.

Cancelled

(I) The provision of services in addition to those specifically set forth in this rule to all or some passengers shall not be construed as a waiver of AA'S rights. Neither shall any delay on the part of AA in exercising or enforcing its rights under this rule be construed as a waiver of such rights.

Rule 87 Denied Boarding Compensation

(A) Denied boarding (U.S.A./Canadian flight origin)
when there is an oversold AA flight that originates in the U.S.A./Canada, the following provisions apply:

(1) Request for volunteers
AA will request passengers who are willing to relinquish their confirmed reserved space in exchange for compensation in an amount determined by AA in the form of a travel credit (including but not limited to a Travel Voucher or Electronic Miscellaneous Document). The travel credit will be valid only for travel on AA for one year from the date of issue and will have no refund value. If a passenger is asked to volunteer, AA will not later deny boarding to that passenger involuntarily unless that passenger was informed at the time he/she was asked to volunteer that there was a possibility of being denied boarding involuntarily and of the amount of compensation to which he/she would have been entitled in that event. The request for volunteers and the selection of such person to be denied space will be in a manner determined solely by AA.

(2) Boarding priorities
If a flight is oversold, no one may be denied boarding against his/her own will until AA or other carrier personnel first ask for volunteers who will give up their confirmed reserved space willingly in exchange for compensation as determined by AA. If there are not enough volunteers, other passengers may be denied boarding involuntarily in accordance with AA's boarding priority. AA will not involuntarily remove a revenue passenger who has already boarded in order to give a seat to another passenger.

(a) Passengers who are qualified individuals with disabilities and their service animal or travel assistant, unaccompanied minors under the age of 18 years, or minors between the ages of 5 to 14 years who use the unaccompanied minor service, and for Canada departures only, families traveling together, will be the last to be involuntarily denied boarding if it is determined by AA that such denial would constitute a hardship.

(b) The priority of all other confirmed passengers may be determined based on a passenger's fare class, itinerary, status of frequent flyer program membership, whether the passenger purchased the ticket under select AA corporate travel agreements, and the time in which the passenger presents him/herself for check-in without advanced seat assignment.

(3) Transportation for passengers denied boarding

When AA is unable to provide previously confirmed space due to an oversold flight, AA will provide transportation to such passengers who have been denied boarding whether voluntarily or involuntarily in accordance with the provisions below.

(a) AA will transport the passenger on its own flight to the destination without stopover on its next flight on which space is available at no additional cost to the passenger, regardless of class of service.

(b) If space is available on another carrier's flight regardless of class of service, such flights may be used upon AA's sole discretion and the passenger's request at no additional cost to the passenger only if such flight provides an earlier arrival than the AA flight offered in (3)(a) above.

(4) Compensation for passengers denied boarding involuntarily

(a) For passengers traveling between points within the United States, subject to the exceptions in section (d) below, AA shall pay compensation to passengers denied boarding involuntarily from an oversold flight at the rate of 200% of the fare to the passenger's first stopover or, if none, destination, with a maximum of $1075.00 USD if AA offers alternate transportation that, at the time the arrangement is made, is planned to arrive at the passenger's destination or first stopover more than one hour but less than two hours after the planned arrival time of the passenger's original flight; and AA shall pay compensation to passengers denied boarding involuntarily from an oversold flight at the rate of 400% of the fare to the passenger's first stopover or, if none, destination with a maximum of $2150.00 USD. If AA offers alternate transportation that at the time the arrangement is made, is planned to arrive at the passenger's destination or first stopover more than two hours after the planned arrival time of the passenger's original flight.

(b) For passengers traveling from the United States to a foreign point, subject to the exceptions in section (d) below, AA shall pay compensation to passengers denied boarding involuntarily from an oversold flight originating at a U.S. airport at the rate of 200% of the fare to the passenger's first stopover or, if none, destination, with a maximum of $1075.00 USD if AA offers alternate transportation that, at the time the arrangement is made, is planned to arrive at the passenger's destination or first stopover more than one hour but less than four hours after the planned arrival time of the

passenger's original flight; and AA shall pay compensation to passengers denied boarding involuntarily from an oversold flight at the rate of 400% of the fare to the passenger's first stopover or, if none, destination with a maximum of $2150.00 USD. If AA offers alternate transportation that at the time the arrangement is made, is planned to arrive at the passenger's destination or first stopover more than four hours after the planned arrival time of the passenger's original flight,

(c) For passengers traveling from Canada to a foreign point, subject to exceptions in section (d) below, AA shall pay compensation to passengers denied boarding involuntarily from an oversold flight originating at a Canadian airport as follows: $900.00 CAD if the passenger reaches their final destination within six hours of the time stated on the original ticket; $1800.00 CAD if the passenger reaches his final destination between six and nine hours of the time stated on the original ticket; and $2400.00 CAD if the passenger reaches his final destination more than nine hours after the time stated on the original ticket.

(d) Exceptions: A passenger denied boarding involuntarily from an oversold flight shall not be eligible for denied boarding compensation if:

(i) The flight is cancelled.

(ii) The passenger holding a ticket for confirmed reserved space does not comply fully with the requirements in this contract of carriage requirements regarding ticketing, check-in, reconfirmation procedures, and acceptance for transportation;

(iii) The flight for which the passenger holds confirmed reserved space is unable to accommodate the passenger because of substitution of equipment of lesser capacity when required by operational or safety reasons; or, on an aircraft with a designed passenger capacity of 60 or fewer seats, the flight for which the passenger holds confirmed reserved space is unable to accommodate that passenger due to weight/balance restrictions when required by operational or safety reasons;

(iv) The passenger is offered accommodations or is seated in a section of the aircraft other than that specified on his/her ticket at no extra charge, provided, if a passenger is seated in a

section for which a lower fare applies, the passenger will be entitled to a refund applicable to the difference in fares;

(v) The passenger is accommodated on alternate transportation at no extra cost to the passenger, which, at the time such arrangements are made, is planned to arrive at the airport of the passenger's next stopover (if any), or at the airport of the destination, not later than 1 hour after the planned arrival time of the flight on which the passenger held confirmed reserved space; or

(vi) The passenger is an employee of AA or of another carrier or other person traveling without a confirmed reserved space; or

(vii) The passenger does not present him/herself at the loading gate for boarding at least 10 minutes prior to scheduled domestic departures, and 30 minutes prior to scheduled international departures. See Rule 60 for additional information regarding boarding cut-off times.

(e) Payment time and form for passengers travelling between points within the United States or from the United States to a foreign point

(i) Compensation in the form of a travel credit or check will be made by AA on the day and at the place where the failure to provide confirmed reserved space occurs. However, when AA has arranged, for the passenger's convenience, alternate transportation that departs before the payment to the passenger under this provision can be prepared and given to the passenger, the payment shall be sent by mail or other means to the passenger within 24 hours after the time the denied boarding occurs.

(f) Payment time and form for passengers departing Canada

(i) Compensation in the form of a check will be made by AA prior to the next scheduled departure time for passengers if possible, but in all cases compensation will be provided within 48 hours after the failure to provide confirmed reserved space occurs.

(5) Limitation of liability

If AA's offer of compensation pursuant to the above provisions is accepted by the passenger, such payment will constitute full compensation for all actual or anticipatory damages incurred or to be incurred by the passenger as a result of AA's failure to provide the passenger with confirmed reserved space. If AA's offer of compensation pursuant to the above provisions is not accepted, AA's liability is limited to actual damages proved not to

exceed $1550.00 USD or $1550.00 CAD per ticketed passenger as a result of AA’s failure to provide the passenger with confirmed reserved space. Passenger will be responsible for providing documentation of all actual damages claimed. AA shall not be liable for any punitive, consequential or special damages arising out of or in connection with AA's failure to provide the passenger with confirmed reserved space.

(B) Denied boarding non-U.S.A./Canada flight origin where there is an oversold AA flight that originates outside the U.S.A./or Canada, no compensation will be provided except where required by local or international laws regulating oversold flights.

(A) General
Refund by AA for an unused ticket or portion thereof, will be made in accordance with the following conditions:

(i) Taxes or fees will be refunded if the airline's obligation to remit the tax or fee depends upon use of the ticket for travel.

(ii) Taxes or fees will not be refunded if the airline's obligation to remit the tax or fee arises by virtue of its collection of the tax or fee (as opposed to actual travel by the passenger). All taxes and fees imposed by the United States government fall within this category.

Note: If a tax only refund is made, the remaining value of the ticket will be forfeited by the passenger in which case can no longer be used as a credit for future travel.

for the effected baggage less any non-refundable taxes if the checked baggage is not made available to pick up by the customer or delivery of the baggage is delayed beyond:

(a) 12 hours of arrival of the final ticketed flight for travel wholly within the United States

(b) 15 hour of arrival of the final ticketed flight for travel between the United States and international points when the nonstop flight between the United States and the international point is less than 12 hours or,

(c) 30 hours of arrival of the final ticketed flight for travel between the United States and international points when the nonstop flight between the United States and the international point is more than 12 hours

(V) Excess value charges (excluding assistive devices)

(1) For purposes of transportation under the Montreal Convention, a passenger may, declare a value for baggage in excess of the maximum liability of 1,288 SDR's per passenger for all checked baggage.

(2) When such a declaration is made, a charge of such excess value will be assessed at USD 5/CAD 6 per $100 or fraction thereof.

Note: A higher declared value may not be applied to money, jewelry, silverware, negotiable papers, securities, business documents, samples, paintings, antiques, artifacts, manuscripts, irreplaceable books or publications or other similar valuables.

(3) Excess valuation baggage may be checked for online travel only.

(4) Normal carrier limit of liability will be waived for substantiated claims involving loss, damage, or delay in delivery to mobility aids such as wheelchairs, walkers, crutches, scooters, and other mobility aid, when such items have been accepted into the care of the carrier as checked baggage or otherwise. The liability of carrier for substantiated claims involving the loss of, damage to, or delay in delivery of mobility aids when such items have been accepted as checked baggage or otherwise, is to be based on the cost of the repair or replacement value of the mobility aid.

(a) Delay to any mobility aid must be reported within 24 hours of the flight arrival for travel wholly within the United States and within 21 days of flight arrival for all other itineraries.
Damage to any mobility aid must be reported within 24 hours of receipt of the mobility aid for itineraries wholly within the United States and within 7 days of receipt of the mobility aid for all other itineraries.

(b) (i) Supporting documentation such as the itinerary, baggage tag number, clear pictures of any damage, evidence of purchase, model and type of the mobility aid, and any other information that may reasonably be requested by AA to identify the mobility aid and asses the credibility of the claim
(c) Reports for delay and/or damage mobility aid must be made in person at the Baggage Service Office, via phone, or online at aa.com.
(d) In the event of damage or delay to a mobility aid, AA will make reasonable efforts to provide a temporary replacement without delay.

(e) AA will arrange a repair for damaged mobility aids at its expense.
(f) If it is determined a damaged mobility aid cannot be repaired, AA will replace the mobility aid with the same or comparable model.

(W) Valuation limit of baggage (excluding assistive devices)
(1) The total declared value may not exceed USD 5,000/CAD 6,100.
(2) No baggage of any one passenger, having a declared value in excess of USD 5,000/CAD 6,100 will be accepted unless special arraignments have been made in advance, by the passenger with AA.

(X) Collection of excess value charges
Excess value charges will be payable at the point of origin for the entire journey to final destination; provided, that, if at a stopover en route, a passenger declares a higher excess value than that originally declared, additional value charges for the increased value from the stopover at which the higher excess value was declared to final destination will be payable.
Exception: Excess value charges will be payable only to the point to which the baggage is checked or to the point of transfer to another carrier if such point precedes the point to which baggage is checked.

(Y) Refund of charges on involuntary rerouting or cancellations
When a passenger is rerouted or their carriage cancelled, the provisions which govern the payment of additional fares or the refunding of fares shall likewise govern the payment or the refunding of excess charges.

(Z) Acceptance of in-bond baggage
Subject to advance arrangements being made with the carrier, in-bond baggage will be subject to a USD 50/CAD 30 processing fee for each piece transported. For the purpose of this rule, in-bond baggage will be defined as baggage transported into the U.S. from a point outside the country that:
(1) Is placed in AA's custody by customs for:
(a) Transport to the passenger's U.S. airport of destination or nearest customs facility for customs inspection, or

(b) Transport to the passenger's U.S. port of departure from point outside the U.S., or
(c) Export to a point outside the U.S. from the passenger's port of entry.

(2) Must remain inaccessible to the passenger.
(3) Must be delivered into custom's custody for clearance to the passenger.
(4) Normal baggage/liability rules apply.

Rule 130 Fares[Δ]

Effective November 9 for travel to/from the US.

(A) General

The mileage routings or specified routings contained in this tariff shall apply only when transportation is via the Atlantic Ocean/Pacific Ocean or wholly within the Western Hemisphere on through AA fare components, or on agreed industry fares when AA performs governing carriage as described in Rule 5 of this tariff, unless otherwise prohibited by this tariff. Fares apply only for carriage from the airport at the point of origin to the airport at the point of destination, and do not include ground transfer service between airports and city centers, except where Rule 30 specifically provides that such ground transfer service will be furnished without additional charge.

(B) Fare construction definitions

(1) Round Trip

Round trip means travel from one point and return to the same point comprised of no more than two fare components, for which the same mileage surcharge and/or higher intermediate point city pair applies to both the outbound and return fare components.

Class of service, seasonality, midweek and weekend fare differences are not considered in the application of this definition. This definition does not apply to around the world journeys.

(2) Circle Trip

Circle trip means travel from a point and return to the same point by a continuously charged air route which does not qualify under the definition of Round Trip above; provided that, where no reasonable direct scheduled air route is available between two points, a break in the circle may be traveled by any other means without prejudice to the circle trip.

(3) One Way Trip

One way trip is any journey which, for fare calculation purposes, is not a complete round or circle trip entirely by air.

(4) Around the World Trips

Around the world trips are circle trips which apply to travel from one point and return to the same point which involves only one crossing of the Atlantic Ocean and only one crossing of the Pacific Ocean.

(5) Open Jaw Trips

An open jaw trip is travel which is essentially of a round trip nature, except that:

[Δ] Tracked changes applicable to/from the United States and annotated throughout the entirety of Rule 130 are effective September 09, 2026, pursuant to Docket OST-1997-2050.

(a) For Single Open Jaw - the outward point of arrival and the inward point of departure are not the same, or the outward point of departure and the inward point of arrival are not the same.

(b) For Double Open Jaw - the outward point of arrival and the inward point of departure are not the same, and the outward point of departure and the inward point of arrival are not the same.

Note: If a rule states simply "open jaw", it permits a single or a double open jaw.

(6) Side Trip

Side means a round trip, circle trip, one way or open jaw journey to and or from the same en-route point of a fare component. When a fare for a side trip is charged separately, apply the provisions of fares for round trips, circle trips, one way and open jaw trips.

(7) Special Area Definitions

Each of the following areas is considered one country, for the purpose of fare construction;

(a) Canada and U.S.A.

(b) Denmark, Norway and Sweden

(C) Applicable fares

(1) Published applicable fares between two points take precedence over any combination of fares in the same class of service that produces a higher total fare. A published fare includes a fare obtained by combining an applicable published arbitrary with a published international fare.

(2) Fares are applicable in the direction of travel except when more than one fare component is involved. For any fare component which terminates in the country of origin, the fare applicable to such fare component from the country of origin must be charged. For round trip, circle trip, and/or open jaw fares combined end-on-end with other fares, the country from which such fare(s) is charged is considered the country of origin. For a fare(s) charged on side trips, the point of fare interruption is considered as the point of origin for determining the fare directionality of the separately charged side trip components.

Exception 1: For fare components between the U.S.A./Canada or between Denmark/Norway/ Sweden returning to the country of origin, the fare from country of origin shall apply.

Exception 2: (Applicable to Open Jaw normal and special fares) For tickets originating and terminating in

Europe (except for tickets with travel wholly within Europe), when the open jaw is between countries in Europe, the applicable fare for the last fare component into the country of destination shall be the fare applicable from the country of destination.
EXAMPLE: AMS-WAS-MAD
FARE CONSTRUCTION:
AMS-WAS 1/2 RT PEX FARE
MAD-WAS 1/2 RT PEX FARE

(3) Directional fares may be used in the construction of circle trip fares. However, for the last fare component into the country of origin, the fare applicable to such fare component must be used.

(4) All published fares governed by this tariff and all fares constructed in accordance with this tariff are applicable only when in compliance with all the provisions governing travel as stated herein. If a diagrammatic or linear routing is specified in connection with a fare, such routing must be observed for that portion of the transportation covered by that fare. Mileage routings (see Maximum Permitted Mileage Tariff No. MPM-1, C.A.B. No. 424, NTA(A) No. 239) are applied to any published or constructed fare.

(5) The fare paid is applicable only when international travel commences in the country of the point of origin shown on the ticket, i.e. if international travel actually commences outside the country of the ticketed point of origin, the fare must be recalculated from the point where international travel actually began. For example, if a ticket is purchased at the fare for travel Athens-Frankfurt-New York, and the passenger commences travel in Frankfurt instead of Athens, the fare must be recalculated at the Frankfurt-New York level.

(6) When a PU contains fare components for which different percentages apply, the fare for each percentage component shall be calculated using the percentage applicable to that component. Fare construction checks (HIP, CTM, etc.) shall be made using the levels which result for applying such percentage.
Example
Journey A-B-C-D Children's fare:
A-C 50% of the adult fare.
A-D 50% of the adult fare.
B-C 67% of the adult fare.
B-D 67% of the adult fare.
Calculate amounts resulting from the application of the above percentages. Using these amounts apply minimum fares checks (such as HIP/CTM checks)

(7) The fare for a fare component shall be the lower amount which can be determined according to:

(a) Mileage System:
The application of the Mileage System, as described in Section (D)(4) and following in this rule, or

(b) Lowest Combination of Fares Principle:
The lowest combination of sector fares over intermediate point(s) on the itinerary, subject to applicable minimum fare checks. Fares constructed by the Lowest Combination of Fares Principle may utilize through mileage over any combination of sector fares used, even though such fares are shown separately, provided that all transportation is via the fare construction point(s).

(D) Construction of fares

(1) Combinations
Fares may be combined with other fares, provided that such fares permit the combination.

(a) Round Trips:
The fare for a round trip is the round trip fare published for the desired routing and class of service charged. If no round trip fare is published, the applicable fare is the sum of the one way fares published for the desired routing and class of service used. When transportation is partially via fares governed by this tariff and partially via fares published in other tariffs, 50 percent of a round trip fare published in other tariffs will be used to construct a round trip fare provided that:

(i) fares which, by their terms, are not combinable with other fares, must not be used in the construction of round trip fares;

(ii) No part of the round trip is via the services of a nonscheduled carrier or on a charter or military flight.

(b) Circle Trips:
The fare for a circle trip is:

(i) The sum of 50 percent of the applicable round trip fares for the class of service charged for the respective sections of the itinerary from the point of origin via the route of travel to destination that produces the lowest fare of the class of service used. If no round trip fare is published, the applicable fare is the sum of the one way fares published for the desired routing and class of service charged, and/or;

(ii) When transportation is partially via fares governed by this tariff and partially via fares published in other tariffs, 50 percent of a round trip fare governed by this tariff may be combined with 50 percent of a round trip fare

published in other tariffs to construct a circle trip fare provided that:

(aa) fares which, by their own terms, are not combinable with other fares must not be used in the construction of circle trip fares;

(bb) the most restrictive fare rule provision, as listed in rule 2 permitted combination (9) applicable to any fare used in the construction shall apply to the entire trip;

(cc) no part of the circle trip is via the services of a non-scheduled carrier or on a charter or military flight.

(c) Open Jaw Trips:

(i) Normal Fares

Travel comprising only two International fare components with a surface break(s) that, unless otherwise specified in a normal fare Rule, may be between any two points/countries in the sub-area of unit origin and/or within the same/different IATA area(s) at destination, for which the fare is assessed as a single pricing unit using half round trip fares, provided that except for travel between Areas 2 and 3, and except for travel between Area 1 and Area 3 via the Pacific, and except for travel between Area 1 and Area 3 via the Atlantic, travel must be via fares of the same global indicators to and from points of the surface break, and when the surface break is at the destination and the open jaw points are in different sub-areas or IATA Areas, the open jaw mileage must be shorter than the accumulated TPM of the longer fare component.

Note: For purposes of this provision, the following are considered tariff sub-areas:

Area 1: North America, Central America (including Panama), South America (excluding Panama), IATA Caribbean.

Area 2: IATA Europe, Africa, Middle East.

Area 3: Asia (excluding Southwest Pacific),

Southwest Pacific.

(ii) Special Fares
Unless otherwise stated in the applicable fare rule, the fare for an open jaw special fare trip is the sum of 50 percent of the applicable round trip fare for each leg of the open jaw.
Exception: Between Bahamas, Bermuda, Cayman Islands, Cuba, Dominican Republic, Haiti, Jamaica, Turks and Caicos Islands and the rest of IATA Caribbean sub-area: No special fare open jaws are permitted.

(d) Unless otherwise stated in an applicable fare rule, 50 percent of a round trip fare governed by one rule must not be combined with 50 percent of another round trip fare governed by a different rule in order to construct a different type of round or circle trip fare.

(e) Special round trip fares must not be used to construct Around-The-World fares, nor 50 percent of a round or circle trip special fare may be used to construct another type of round or circle trip special fare.

(f) When constructing open jaw or circle trip special fares involving fares with different conditions, the most restrictive conditions as described in Rule (2) Permitted Combination (9) shall govern the entire journey.

(g) Unless otherwise stated in an applicable fare rule, when combining special fares with other types of fares, the restrictive provisions of the special fare apply only to the special fare and not to any other fare when used in end-on-end combinations.

(h) Subjourney combinations (Applicable to tickets issued by and validated on AA.) A journey may be broken within a tariff sub-area, as defined in (D)(1)(c)(i)(ii)(bbb) of this rule, to form independent subjourneys, the total of which may be lower than a through fare for the same class of service. This provision applies to one way, round trip, and circle trip journeys. Additionally, for such combinations, fare rules for all fares used in a subjourney shall be validated to such subjourney separately and independently of any other subjourney, as if such subjourney were ticketed separately, provided that the combinations of subjourneys is permitted by end-on-end provisions of the fares combined. One way subjourneys may be combined

end-on-end with round/circle trip subjourneys and vice versa.

(i) Combination with other fares may not be used to extend the period of validity.

(j) Partly via Air and Partly via Sea (Applicable to round trip and Around-The-World-Fares) When tickets are purchased prior to commencement of carriage for a round trip or around the world journey for combined air and sea travel, the air fare for each one way section of the air journey is 50 percent of the all year round trip fare published in this tariff and applicable between the points and via the class of service charged. A break in the round trip is permitted to allow passengers to make independent provisions for carriage by any means of transportation between airports and adjacent seaports.

(2) Combination of Arbitraries with International Fares

When combining arbitraries with international fares, the fare for such transportation will be established by combining the published arbitrary and the published international fare for the fare class applicable to the transportation. A passenger may be routed via any gateway city regardless of the point(s) used in establishing the fare, subject to the provisions of (C) above.

(3) Surface Transportation Segments

(a) Normal Fares

For tickets containing only normal fares - If the mileage for an international surface break is:

(i) Greater than the total TPMs over the routing traveled from the point origin to the point of commencement of the surface break, and

(ii) The surface break is not included in the through fare, the journey from the point of origin up to the surface break must be ticketed separately.

Exception: This does not apply to permissible surface sectors in (f) below.

(b) Surface Transportation Due to Lack of Reasonably Direct Air Service

When no reasonably direct scheduled air service is available between two points of a circle trip, a break in the circle trip may be traveled by any other means of transportation without changing the status of the circle trip.

(c) For Tickets Containing Both Air and Surface Transportation Segments.

When a journey by air is interrupted by the use of surface transportation between points not listed in sub-paragraph (f) below, the

fare must be constructed by whichever of the following methods produces the lowest fare:

(i) The sum of two or more applicable one way fares.

(ii) A one way, round or circle trip fare covering all portions of the itinerary whether travelled by air or surface transportation.

(iii) A round or circle trip fare for that portion of the itinerary which meets the requirements of a round or circle trip, plus one or more one way fares for those portions not included in the round or circle trip fare.

(d) A surface break may occur on a routing fare provided both points of the surface break are on the specified routing.

(e) A through fare may not be charged over a surface sector at the point of origin of an itinerary.

(f) Permissible Surface Transportation Sectors

(i) When a fare component includes surface transportation between the following pairs of intermediate points, the mileage between such intermediate points is disregarded when computing sector mileages.

(ii) The exclusion of these mileages will not affect the status of a round or circle trip.

(iii) These sectors must not be used as points of origin/destination.

(4) Mileage System

The maximum permitted mileage (MPM) published in connection with a fare governs the maximum distance a passenger is allowed to travel en route between two particular points at the direct through one way or half round trip fare. In order to determine whether a desired routing between two points is permissible at the through one way or half round trip fare, the following procedures shall apply.

(a) Determine the applicable MPM between the terminal points of the fare.

(b) Add the ticketed point mileages (TPM) between the cities on the itinerary, including all intermediate ticketed points. Intermediate points of through flights are not considered when computing mileages. The ticketed point mileages to be used to determine the actual mileage for the itinerary are those published in the International Air Transport Association Ticketed Point Mileage Manual.

Note: "Ticketed Points" are those points which would be shown in the "good for passage" section of a passenger ticket. Two flight numbers or two carriers (such as an interchange flight) are not permitted on the flight coupon.

If, on a through fare, a portion of the journey is to be travelled by means of surface transportation, the direct or lowest combination of currently published ticketed point mileages is to be used, whether or not air services exist over such sectors, unless noted in Permissible Surface Transportation exception cities (3)(f) above.

(c) Compare the total TPM's to the applicable MPM permitted at the direct fare between the two points. If the total TPM's are equal to or less than the MPM, the itinerary is allowed at the published direct fare.

(d) If the total TPM's for a fare component exceed the MPM published in connection with a fare, a surcharge becomes necessary. Where the sum of the ticketed point mileages for the routing option is greater than the

maximum permitted mileage, the direct route fare shall be surcharged in accordance with the following formula:

Divide the sum of the TPMs by the MPM mileage. if the result is:	Then the fare shall be surcharged by:
Over 1.00 but less than or equal to 1.05	5 percent
Over 1.05 but less than or equal to 1.10	10 percent
Over 1.10 but less than or equal to 1.15	15 percent
Over 1.15 but less than or equal to 1.20	20 percent
Over 1.20 but less than or equal to 1.25	25 percent

(e) If the sum total of TPM's exceeds the adjusted MPM shown at 25 percent in the Excess Mileage Percentage Table, the applicable fare will be the combination of two or more fares along the desired routing which produces the lowest fare.

(f) Extra Mileage allowances are permitted in certain markets in addition to the published MPM's; however, only one extra mileage allowance is permitted in connection with a one way or half round trip fare component. Extra mileage allowances apply only in connection with the through fares between the points or areas specified, and apply only when shown on the ticket as ticketed points. The extra mileage allowance is deducted from the sum total of the TPM's before making the comparison between this total and the applicable MPM's. EMA means extra mileage allowance.

Note 1: All travel within Area 1 must be via the services of AA.

Note 2: No stopover permitted at either RIO or SAO.

Note 3: All travel within the United States/Canada must be via the services of AA.

Note 4: All travel between MIA and Puerto Rico/Virgin Islands must be via the services of AA.

Note 5: All travel within United States/Canada/Mexico/Caribbean must be via the services of AA.

Note 6: All travel within the U.S./Canada/Caribbean and Mexico area and between the

U.S. and Brazil must be via the services of AA.

Note 7: All travel between MCO/MIA/ORL and Puerto Rico/Virgin Islands must be via the services of AA.

Note 8: All travel must be via AA.

Note 9: All travel within the US/Canada must be via the services of AS.

Note 10: All travel within Area 2 must be via the services of QR.

(g) Special provisions for Brazil with regard to fare components which originate or terminate in Rio De Janeiro or Sao Paulo:

Note: This provision does not apply when both RIO and SAO are included in the same fare component.

(i) If a fare to or from Rio de Janeiro falls within the MPM, and the fare for the same route to or from Sao Paulo exceeds the MPM, the fare to and from the latter point need not be surcharged.

(ii) If a fare to or from Sao Paulo falls within the MPM, and the fare for the same route to or from Rio de Janeiro exceeds the MPM, the fare to and from the latter point need not be surcharged.

(iii) If a fare to or from Rio de Janeiro must be surcharged, the fare for the same routing to or from Sao Paulo need not take a higher surcharge (or vice versa).

(iv) This rule applies only to fare components within Area 1.

(h) (Applicable to transatlantic fare components between South America and Europe/Middle East/Area 3)

When travel is on direct service from a point in South America and CHI/CLT/DFW/MIA/ NYC/PHL to a point in Europe/Middle East/Area 3, the mileage for these two sectors shall be the TPM between the last point of departure in South America directly to the first point of arrival in Europe/Middle East/Area 3 or vice versa. In addition, this provision will apply when BOS/CHI/CLT/NYC/PHL is the gateway to/from a point in Europe/Middle East/Area 3 and MIA/DFW is the gateway to/from a point in South America, and if travel is via AA single plane service between BOS/CHI/CLT/NYC/PHL and MIA/DFW.

(i) (Applicable to fare components between the Canary Islands and Canada/Mexico/U.S.A. via

Madrid) If a mileage surcharge is required, the surcharge to the direct fare shall be the surcharge applicable to/from Madrid only if resulting in a lower percentage than the normal surcharge to the direct fare to/from the Canary Islands.

(j) Limitations on Indirect Travel

(i) Fare Component Limitation
The one country rule for Canada and USA and for Denmark, Norway, Sweden does not apply to this rule.

(ii) General Limitation
A fare component may not include more than:
(aa) One departure from origin, or
(bb) One arrival at destination, or
(cc) One stopover at any one ticketed point.

(iii) Additional Limitations
(aa) (Applicable to fare components within Area 1) An intermediate ticketed point may not be included more than once in any one way or half round trip fare component, whether or not a stopover is made at such point. A separate side trip fare must be charged and added to the through fare.
(bb) Applicable to fare components between points in Area 1 and Area 3 via the Pacific, and to fare components between points in Area 2 and Area 3 via the Atlantic and Pacific, including around-the-world journeys. Unless prohibited by individual fare rule or routing, a ticketed point may be transited twice, provided only one stopover is made at such point and AA is the sole carrier on the entire fare component.
(cc) Unless otherwise stated in the applicable fare rule(s), a ticket may not include more than four international ticketed point arrivals or four international ticketed point departures in any single country including arrival and departure surface sector points.
(dd) For tickets originating in Area 1:
No fare component within Area 1 may include more than one international departure and arrival at any ticketed point in

the country where travel originates on the ticket.

(ee) Except for Journeys wholly within South America
For a pricing unit originating in Brazil, a fare component from a point in Brazil must not include more than 2 domestic sectors in Brazil.
Example: FLN X/CWB-IGU-X/SAO-LON: A through fare FLN-LON is not permitted. POA-RIO-SSA-LIS at a through fare POS-LIS is permitted.

(ff) Fare components to/from Azores are not applicable for routings which include travel within Azores.

(gg) For tickets originating in Germany, a fare component to/from a point in Germany may not include more than two domestic flights in Germany.

(hh) The mileage system does not apply to domestic travel within Madagascar in connection with international travel.

(ii) The mileage system does not apply to domestic travel within Myanmar in connection with international travel.

(jj) VN domestic sectors within Viet Nam may not be included in international through fares. Full domestic local fare(s) are to be collected.

(k) Permitted Specified Routings
The specified routings mentioned below shall be permitted at the direct fare, provided that the fare between the points named is applied, and that the route is via the points specified below, and no additional point(s) is (are) added.

(5) Travel Via a Higher-Rated Intermediate Point

(a) Normal Fares

(i) The through fare between origin and destination must not be lower than the applicable fare, including validation of seasons, blackouts, day-of-week application, transfers, stopovers, specific flight application, specified routing, and limitation of indirect travel;

(aa) from the point of origin to any intermediate stopover point; or
(bb) from any intermediate stopover point to the destination; or
(cc) between any two intermediate stopover points along the routing of travel.

Exception 1: When journey originates in West Africa, higher intermediate points must be checked from all en route ticketed points in West Africa.

Exception 2: See chart in (d) below for exceptions.

(ii) When the normal fare for a fare component of an itinerary is lower than an intermediate point normal fare, the fare from origin to destination must be raised to the amount of such higher fare. All conditions of the normal fare between origin and destination shall apply.

Exception: See chart in (d) below for exceptions.

(iii) If travel from the origin to the destination of the fare component exceeds the published MPM, the appropriate excess mileage surcharge must be applied to the higher intermediate fare.

(iv) When comparing normal fares of the same class of service, the lowest qualifying mileage or routing fare should be used for comparison (See (F) below).

(aa) A first class fare is compared with a first class fare; if no first class fare, compare with intermediate class fare (or next lower class fare).
(bb) An intermediate class fare is compared with an intermediate class fare; if no intermediate class fare, compare with the highest economy class fare.
(cc) An economy class fare is compared with an economy class fare, if no economy class fare, use next higher fare.

Note: For the purpose of this provision, inventory is not considered.

(v) When comparing normal fares, the comparison will be made in the same direction as the fare component.

(b) Special Fares

If in any routing otherwise permissible at the direct route special fare there is a direct route special fare(s) of the same

class of service from;
(i) Fare component origin to each intermediate stopover point,
(ii) Each intermediate stopover point to the fare component destination.
(aa) The special fare of the fare component shall not be less than the lower/lowest applicable special fare of the same fare type.
(bb) If there is no matching applicable special fare of the same type, the special fare of the fare component shall not be any less than the lower/lowest applicable special fare within the same fare type group.
(cc) If there is no applicable special fare of the same type, the special fare of the fare component shall not be less than the lower/lowest next applicable fare within the next higher fare type group. Continue to the next group only if there is no applicable fare found.
(dd) If there is no applicable special fare within any higher fare type group, the direct route special fare surcharged if necessary should be used.
Note 1: The conditions which define applicable special fares are day of week, seasonality (including blackout dates), flight application, stopovers, transfer and limitations of indirect travel, and routing validation.
Note 2: Advance purchase, minimum/maximum stay, and inventory is not considered in determining which intermediate fares are applicable.
Note 3: If there is more than one applicable special fare of the type needed, the lowest of such fares apply.
Note 4: When checking a one-way special fare, only one-way special fares may be used for comparison.
(ee) All conditions of the through special fare from the origin to the destination shall apply.
Exception 1: When journey originates in West Africa, higher intermediate points must be checked from all en

route ticketed points in West Africa.

Exception 2: See chart in (d) below for exceptions.

(f) Special Provisions/No Applicable Fares/Unpublished Intermediate Point Fares/Side Trip

(i) When a fare component is routed via an intermediate point for which no applicable fare exists due to routing/stopover/transfer restrictions, ignore the restrictive provisions and select the fare most applicable to the route of travel.

(ii) When no applicable fare exists due to limitations of indirect travel; ignore the restriction of indirect travel between the points for which the higher intermediate fare check applies.

(iii) When a fare component includes an intermediate ticketed point for which no

through fare is published, the HIP check will not apply.

(iv) For the purpose of the higher intermediate fare check, when both the origin and destination points of a side trip are shown as connections, a stopover will be considered to have been taken at such point(s) if more than 24 hours elapses between the arrival at the point of origin of the side trip and the departure from the termination point of the side trip.

(6) Construction of Fares via Different Classes of Service

(Applicable to normal fare travel)

(a) When travel is via different classes of service, the fare must not be higher than the lowest fare resulting from the following:

(i) The combination of sector fares for the class(es) of service used.

(ii) Within each fare component, the applicable through fare for the lowest class of service, plus a differential in the direction of the fare component for each sector where a higher class of service is used; such differential being the difference between the applicable one way or half round trip fare (surcharged, if necessary) for the lowest class of service charged and the corresponding one way or half round trip fare for the higher class fare of the same type.

Exception 1: Applicable to fare components between Area 1 - Area 2/Area 3. When economy class service is used and the transatlantic segment is flown in intermediate class, a differential between economy and intermediate class is not permitted.

Exception 2: Applicable to fare components between Area 1 - Area 2/Area 3. When the transatlantic segment is flown in first class and other segments are in a lower class, differential construction is not permitted.

Exception 3: Applicable to fare components between Area 1-Area 3. When Economy Class Service is used and the transpacific segment

is flown in intermediate class, a differential between economy and intermediate class is not permitted.

Exception 4: Applicable to fare components between Area 1-Area 3. When the transpacific segment is flown in first class and other segments are in a lower class, differential construction is not permitted.

Exception 5: Applicable to fare components within Area 1. When Economy Class Service is used and the segment between the United States and South America (excluding Panama) is flown in intermediate class, a differential between economy and intermediate class is not permitted.

Exception 6: Applicable to fare components within Area 1. When the segment between the United States and South America (excluding Panama) is flown in first class and other segments are in a lower class, differential construction is not permitted.

(iii) The through fare for the highest class of service used.

(iv) The through fare for a higher class of service than the lowest class used, plus a differential in the direction of the fare component for each sector where the highest class of service is used.

Example:	NYC-Y-LON-F-ATH
Charge:	NYC-ATH, C
Differential:	LON-ATH, F
Minus:	LON-ATH, C

(v) For the purpose of this provision, fares are published in the following descending order of classes of service.

(aa) First Class
(bb) Intermediate Class
(cc) Economy Class

(b) For all first and intermediate class fares: Unless otherwise stated in a fare rule, when paying through AA intermediate class fares,

passengers are permitted to sit in first class on AA flights within Area 1 not offering intermediate class seating.

(c) It is permissible to calculate a differential over segments not booked in a higher class provided the following requirements are met.

(i) At least one segment of the through fare component must be booked in the lower class of service applicable to the fare being charged.

(ii) The resulting differential must be lower than the differential for the segment(s) where a higher class is used or the combination of differentials when applicable.

(iii) The differential must not be calculated beyond the terminal points (origin and destination) of the through component.

(d) The application of differential construction must not be used to circumvent any stopover or transfer restrictions applicable to the through fare for the lowest class of service charged.

(e) Differentials are calculated using fares of the same type. For this purpose, "fare types" are defined as either:

(i) Unrestricted (e.g. compare Business Unrestricted to Economy Unrestricted)

(ii) Restricted (e.g. compare First Restricted to Economy Restricted)

Exception: In the absence of a lower class fare for the sector for which a differential is charged, use the applicable fare for the next lower class.

Note: There may be more than one fare with the same fare type for a class of service as defined in 6(e)(i) and (ii) above. If more than one applicable fare exist for the same fare type within the same class of service which results in more than one differential calculation, the one providing the lowest result must be used.

If a calculation using fares of the same type is not possible, differing fare types must be used. When multiple calculations are possible, a zero differential is not permitted as the lowest result of such calculations. ATPCO fare type codes (e.g. ER/ERS) are not used to further differential fares

of the same type.

(7) Around The World Fares

Around-the-World fares are circle trip fares which are applicable to continuous eastbound or westbound travel commencing from and returning to the same point via both the Atlantic and Pacific Oceans.

(a) An Around-the-World fare is constructed by using that particular combination of two or more half round trip fares which produces the lowest total fare from the point of origin and return to the same point.

(b) Unless provided in specified fare rules, only normal fares may be used to construct an Around-the-World fare.

(8) Minimum Fares

Having established the international fare for open jaw, circle trip, or Around-the-World journey in accordance with normal rules, including the higher intermediate point rule and mileage surcharge, where applicable, a separate calculation ignoring mileage surcharge must be made. When this separate calculation results in a higher fare, such higher fare must be charged. Separate fares and separate minimum checks are charged for side trips. For the purpose of minimum fare checks, when both the origin and destination of a side trip are shown as connections, a stopover will be considered to have been taken at such point(s) if more than 24 hours elapses between the arrival at the point of origin of the side trip and the departure from the termination point of the side trip.

(a)

(b) Circle Trip Minimum

The fare for a circle trip must not be less than the highest direct round trip fare from the point of origin to all stopover points on the circle trip for the lowest class of service charged via the applicable global indicator. When fares charged from the point of origin to stopover points differ according to carrier(s)/global indicators, the fare to be used for the check must be the lower of such carrier(s)/global indicator fares. Ignore inventory/routing/stopover restrictions/transfer restrictions when determining the direct fare.

Exception 1: The circle trip minimum check is not applied to a point(s) on the journey permitted to be disregarded by the higher intermediate point rule.

Exception 2: The circle trip minimum check is not applied to an itinerary or sub-journey consisting entirely of special fares.

Exception 3: The circle trip minimum check is not applied if an itinerary consists entirely of end-on-end round trips.

Exception 4: The circle trip minimum check is not applied to a sub-journey that contains a mixture of normal and special fares.

Exception 5: The circle trip minimum check is not applied a connecting point(s) that is a fare break point(s) on a journey.

Exception 6: The circle trip minimum check is not applied to an itinerary containing a government/military fare.

(c) Around-the-World Minimum

(i) After an Around-the-World fare has been constructed, all stopover points on the routing must be checked to determine whether any round trip fares exist from the point of origin to any stopover points on the routing which are higher than the constructed fare. The fare for an Around-the-World journey must not be less than the highest direct normal round trip fare applicable to the class of service charged from the point of origin to any stopover point on the route of travel to any stopover point on the route of travel. However, any point(s) permitted to be disregarded by the higher intermediate point rule need not be checked for the purpose of Around-the-World minimum fare check. In general, transatlantic round trip fares from the point of origin to other points on the routing differ from the corresponding transpacific round trip fares from the point of origin to the same points. For the purpose of this rule, transatlantic round trip fares must be compared with transpacific round trip fares from point of origin to each stopover point on the routing; and the lower of the two will be considered the direct fare. Separate fares are assessed for side trips.

(ii) One Class of Service
The fare for an Around-the-World journey traveled in one class of service must not be less than the highest direct round trip fare from the point of origin to any stopover point on the routing.

(iii) Different Classes of Services
The fare for an Around-the-World journey involving different classes of service

must not be less than the highest direct round trip fare for the lowest class of service charged from the point of origin to any stopover point on the routing, plus applicable differentials for sectors traveled in higher classes of service.

Rule 135 Stopovers

(A) Stopovers will be permitted under the following conditions:

(1) Stopovers must be arranged with AA in advance and specified on the ticket.

(2) Stopovers will be permitted at any point which can be included in an itinerary constructed either by the use of a mileage routing or as specified in the published routing, unless such stopover is prohibited by the AA'S tariff or government regulations.

(3) For travel between Canada and the U.S./Puerto Rico/Virgin Islands, a stopover, as used herein, will occur when a passenger arrives at an intermediate or junction transfer point on a flight and fails to depart from such intermediate or junction transfer point on:

(a) The first flight on which space is available; or

(b) The flight that will provide for the passenger's earliest arrival at intermediate or junction transfer point(s) or destination point, via the carrier and class of service as shown on the passenger's ticket. Provided, however that in no event will a stopover occur when the passenger departs from the intermediate or junction transfer point on a flight shown in the carrier's official general schedules and/or service patterns as departing within four hours after his arrival at such point.

(4) Stopover provisions for normal/special fares (applicable to all fares for which stopovers other than at the point of turnaround are prohibited or restricted in number.) When travel at a through fare is interrupted by surface travel, either at intermediate points or at the point of turnaround, the points of disembarkation and reembarkation of the interrupted portion of travel will be considered together as one stopover or the one point of turnaround.

(5) Only one stopover is permitted at any single point on the itinerary of a journey travelled at a one way or half a round trip fare. The origin and destination or point of turnaround, as the case may be, may not be included in such itinerary more than once, regardless as to whether or not a stopover is made at such point.

(B) Except as otherwise provided, stopovers will be

permitted free of charge at all intermediate points on routings applicable to fares between points in the U.S.A./Canada on the one hand and points outside the U.S.A./Canada on the other hand.

Rule 140 Routings

(A) Application
fares governed by this tariff apply only via the routings specified in connection with such fares.

(B) Routings
(1) Routings are applicable in either direction.
(2) Any routing published between two points shall apply via any nonstop or local service of AA provided carriage is in a generally continuous direction.
(3) If more than one routing is applicable via the same fare, the passenger, prior to the issuance of the ticket, may specify the routing. If no routing is specified by the passenger, the carrier will determine the routing.

Combination of local currency fares

To combine two or more local currency fares, convert all local currency fares into the currency of the country of commencement of transportation.

Step 1: (a) Establish the NUC amount for each local currency fare by dividing the local currency fare by the applicable IATA Rate of Exchange (ROE) shown in the Currency Conversion Table below for the country in which the currency is denominated.

(b) Calculate the resultant amount to two decimals places, ignoring any further decimal places.

Step 2: Add the resultant NUC amounts for the sectors involved.

Step 3: (a) Established the through local currency

fare by multiplying the total NUC amounts (derived from Steps 1, 2, and 3 above) by the IATA Rate of Exchange (ROE) shown in the currency conversion table below for the country of commencement of travel.

(b) Calculate the resultant amount of one decimal place beyond the number of decimal places shown next to the local currency in the conversion table below, ignoring any further decimal places.

(c) Round up to the next higher rounding unit shown next to the local currency in the currency conversion table, unless otherwise indicated.

Exception: When an international ticket is comprised of all domestic fare components, but within different countries, the provisions outlines above shall apply.

Other Charges

Other charges shall be separately converted to the currency of the country of sale using the Bankers' Selling Rate using the rounding units shown next to other charges in the currency conversion table.

MCOs for unspecified transportation and PTAs.

MCOs for unspecified transportation and PTAs when honored for payment of Air transportation shall be subject to the provisions of Rule 75 (Currency of Payment). The country of payment of the PTA or MCO shall be considered the country of original issue and determine construction Rules to apply.

(F) Refunds

Refunds of AAirpasses will be made only in accordance with the provisions set forth in the contract between AA and the purchaser of the AAirpass.

(G) Excess mileage charges

If AAirpass mileage, including premium for first class travel and business class, flown by holder (or his or her companion(s)) in any anniversary year (as determined by anniversary dates) exceeds holder's mileage allotment for that year (including additional mileage and unused mileage from previous years), holder hereby promises to pay AA for such mileage upon receipt

of invoice therefor. Such excess mileage charges will be made at a rate per mile to be fixed by AA from time to time. For travel during any calendar month period, this rate shall be the rate specified in holder's statement for the preceding month. The rate for 5 year term AAirpasses and regular lifetime AAirpasses shall be based on the average full fare coach rate per mile on AA's then current route system. By using the AAirpass card to incur excess mileage, holder consents and agrees to such charges.

Excess miles flown in first class/business class will be billed at the premium mileage rate as set forth in (c)(2)(b) above.

(H) Work stoppage

In the event of a strike or work stoppage that requires the total suspension of AA flights, the following provisions will apply:

(1) Beginning with the 8th day of any such strike, and for each succeeding day, 100 additional miles of future air travel will be credited to holder's currently available mileage upon termination of such strike; and

(2) For each full month (i.e. 30 days) such strike continues, holder's anniversary date shall be extended to the first day of the month following the anniversary date, and the anniversary date as so extended shall become the anniversary date for the purposes of determining annual mileage accruals and AAirpass expiration.

(I) Usage by card holders only

For purchaser's protection, holder's signature will be required at check-in for a flight. Additional identification (such as driver's license or credit card) may, at AA's discretion, be required. AAirpass is valid for use only by the individual whose name appears on the card. AAirpass cards and purchaser's rights under this rule are not transferable, and coupons used in conjunction with AAirpass travel have no cash value. Companion travel may not be sold or bartered under any circumstances.

(J) Travel

AAirpass entitles the holder to one seat per flight (two seats per flight if a qualified lifetime AAirpass 5 year companion term AAirpass or leisure lifetime companion AAirpass holder travels with a companion) and such travel is subject to AA’s rules tariff as in effect at the time of travel and any other general terms and conditions applicable to travel on AA which may subsequently replace or supplement such tariff. AAirpass is valid only for travel on AA and American Eagle. Travel is authorized anywhere on AA’s system, except certain international destinations specified by AA.

(K) Fraudulent usage

If AA determines that an AAirpass has been fraudulently used, AA reserves the right to revoke the AAirpass and all privileges associated with it. Purchaser will

thereupon forfeit all rights to such AAirpass, without refund.

(L) Force majeure

Except as provided above, AA shall not be liable for delays in performance hereunder resulting from causes beyond its reasonable control.

(M) Payment

If purchaser fails to make payment under the terms of a fully executed contract, a processing fee of USD 250.00 will be assessed by AA.

(N) Refunds

Refunds of AAirpasses will be made only in accordance with the provisions set forth in the contract between AA and the purchaser of the AAirpass.

(1) AA reserves the right to terminate this tariff and refund the purchase price of any AAirpass less charges for mileage actually flown, dependent on plan purchase, except for unlimited mileage AAirpasses, which will be refunded in accordance with (n)(2)(a) below, of this agreement.

(2) Upon receipt of a refund request within 90 days, American shall perform the following calculations pertaining to holder's AAirpass and refund the lesser amount of a or b (may be $0), after deducting sums due for excess mileage flown:

(a) Remaining full months before expiration
Total AAirpass months purchased x purchase price * equals a

(b) remaining mileage*
Total mileage purchased* x purchase price * equals B
(*including additional mileage)

(3) For purposes of applying such formulas to refund on lifetime AAirpasses, those AAirpasses shall be determined to have the following terms: regular lifetime AAirpass - 120 months (10 years): unlimited mileage lifetime AAirpass - 200 months. to determine the mileage purchased with any regular lifetime AAirpass, multiply the annual mileage allowance by the number of months given in the preceding sentence, and add any additional mileage purchased. The second formula above is inapplicable to refunds on unlimited mileage lifetime AAirpasses or unlimited 5 year term AAirpasses.

(O) (The provisions of this paragraph do not apply to leisure lifetime, regular lifetime or unlimited lifetime AAirpasses.) Where the purchaser of an AAirpass is a corporation which has designated in the contract between AA and the purchaser that the holder of the AAirpass will be an employee of that corporation, such corporation may redesignate the employee of such corporation who will be the holder of the AAirpass in accordance with the terms of the contract between AA and the purchaser.
